COMPANY PROFILE / BLACKRAPTOR TECHNOLOGY CO., LTD

Built around your next product.

Smartphone accessories manufacturing for brands, distributors and product businesses. OEM and ODM projects welcome.

Your brand. Our manufacturing.

Blackraptor combines product design, colour, material and finish development, branding, sampling and production around the needs of your market. Our featured collection explores charging and data cable design directions within our wider smartphone accessories business.

DESIGN / DEVELOPMENT / PRODUCTION

A clear route from brief to supply.

Manufacturing location	3,000 m² factory in Qingxi Town, Dongguan, Guangdong Province, China.
Cable configurations	USB-A to USB-C, USB-C to USB-C, USB-C to Lightning and custom configurations for discussion.
In-house design	Industrial design and CMF exploration, brand application and feasibility review through sampling.
OEM and ODM	Manufacture a defined specification or develop a product direction through design review and sample approval.

Working together

Align the brief, design direction and specification; review prototypes and the evaluation plan; confirm the approved sample, order requirements, inspection and packing before production and delivery.

For distributors and importers

Discuss range selection, packaging localisation, sample evaluation, launch materials, replenishment and after-sales arrangements. Support scope and commercial terms are confirmed for the cooperation.
